

Internship 3D artist

Are you talented in creating 3D models? Are you looking for new challenges and does it sound like fun to work in a motivated team with big international clients in the food industry?

Then we're looking for you! Within our company MetaChef we efficiently create and combine food products, packaging and designs in 3D, VR and AR applications and visualizations.

Job description

As a 3D Artist, you're responsible for making realistic 3D models for web and VR/AR applications together with the team. You will also be working on the creation of high quality detailed 3D models with the help of the best software available. You're proactive and translate creative ideas to workable concepts in the design process.

- You are studying HBO or higher;
- Your study is 3D design or game development related;
- You have experience with 3DS Max/Maya, Substance Painter and Zbrush or are looking to level up your skills in these software applications.
- You have an excellent command of the English language in word and writing;
- You're creative, excited and know how to translate ideas into reality;
- You have attention for detail and take pride in your work.

Who are we

MetaChef – a fast growing sister company of het Foodatelier & DiDutch – specializes in creating state of art (interactive) 3D visualizations and applications of food products, packages and machinery. Our absolute efficient production approach sets an unparalleled standard for 3D digital food models and we are the only ones in the industry to integrate food and packaging. Our unique services help developers, marketers, teachers and trainers to communicate their message in the most effective manner.
